LOW TEMP RINSE AID

Victoria Bay
Quality products for everyday needs.

Liquid Concentrate

DESCRIPTION

Low Temp Rinse Aid makes your dishes sparkle and shine. Perfect for all low temp automatic dishwashers, Low Temp Rinse Aid's sheeting action literally protects glasses and dishes from spots and stains. Low Temp Rinse Aid is a blue liquid concentrate that is added to the final rinse water in a low temperature dishwashing machine by rinse injector. It is formulated for use under a variety of conditions as well as working in conjunction with most automatic dispensing equipment. Low Temp Rinse Aid reduces the surface tension of water so that, instead of spotting, the water runs off leaving dishware dry and clean.

FEATURES	ADVANTAGES	BENEFITS
• Highly concentrated • Contains water conditioners • Low viscosity liquid • Non-Alcohol formula • Contains silicone defoamers	• Highly dilutable • Effective in all water conditions • Easily dispensed • Contains no VOC's • Reduced foam	• Cost effective • Improved efficiency in hardwater • Consistent dilutions and results • Environmentally sound • Improved rinse pressure and rinsability

DIRECTIONS

Low Temp Rinse Aid is designed for dispensing through automatic dispensing equipment. For best results, follow the equipment manufacturer's instructions for injecting into your dish machine. Use requirements will vary depending on type of machine.

SPECIFICATIONS

Color	Blue	Shelf life	1 Year
