ENZYME DIGESTER DRAIN MAINTAINER

Victoria Bay
Quality products for everyday needs.

Liquid Concentrate

DESCRIPTION

Enzyme Digester Drain Maintainer is a safe bio-active blend which attacks organic solids such as greases, fats, proteins, and carbohydrates, destroying malodors at their source. Recommended for use in grease traps, septic systems, drain lines, refuse containers and all areas where organic solids are the cause of malodor problems.

FEATURES	ADVANTAGES	BENEFITS
• Bio-Active • Attacks all organic wastes • Multiple bacteria strains • Can be automatically dispensed • Stablized excess enzymes	• Digests organic blockages at their source • Removes malodors at their source • Effective in virtually all environmental conditions • Eliminates measurement errors • Starts breaking down organic wastes on contact	• Safe to plumbing • Highly effective deodorant • Versatile • Saves time and money • Immediate benefits

DIRECTIONS

Grease Traps: For best results start treatment immediately after grease trap has been pumped. For 20 cubic feet or less, pour one quart into opening closest to trap during least active time. For maintenance, add 5-10 ozs. daily. For larger traps, use one quart per 20 cu.ft., then add 8-12 ozs. for daily maintenance.

Drain Line/Down Pipe: Treat line with 4 to 8 ozs. of product for every two inches of pipe diameter. Start treatment on first floor and work up. Use product 2-4 times weekly depending on usage. Septic Tanks: Flush 16 ozs. per 25 cu.ft. capacity through toilet for initial treatment and 8 ozs. per week for maintenance. For severe problems add 1 gallon of product initially. Porta-Toilets: Add 1 gallon directly and cover with water to aid digestion. Lagoons: Add one quart for every 10,000 gallon capacity. Use conditions may vary depending on lagoon condition. Refuse Containers/Dumpster: After container is dumped, rinse with water and spray surface with a 1:1 mixture of product and water.

SPECIFICATIONS

Color	Hazy Red	Biodegradeable	Yes
Fragrance	None	Shelf life	1 Year
Density	8.3-8.4	USDA Authorized	L-2
pH	7.5-8.0	Viscosity	Water Thin
Dilution	See Instructions	V.O.C. Content	0.0%
