

KRESTO® KREME

KRESTO® KREME is an extra-heavy duty waterless hand cleaner. It is ideal for the toughest grease and grime without using a scrubber. Can be used with or without water.

Description

KRESTO® KREME is formulated to lift grease and dirt away from the skin. No scrubber (i.e. pumice) and a low solvent content make it much easier on the skin than many competitive products. It cleans extremely well in cases of stubborn industrial dirt (e.g. grease, oil, soot, metal dust, etc.).

KRESTO® KREME can be used with or without water. It is formulated to work without a water rinse and clean thoroughly and quickly. In customer tests, workplaces that prefer a grit or scrubber-free product enjoyed using KRESTO® KREME with water and the performance was outstanding.

KRESTO® KREME has been formulated with a PH level that mirrors the skin's natural mantle to help keep skin healthy.

Solvent free SOLOPOL® and KRESTO® SELECT are available for cases of moderate to heavy industrial dirt where no solvent is necessary but a paste product with scrubber is preferred.

Use without water

- Rub small amount of KRESTO® KREME thoroughly onto dry hands.
- Wipe with towel to lift dirt away from skin.

Use with water

- Rub small amount of KRESTO® KREME thoroughly onto dry hands.
- Add a little water and continue washing.
- Rinse with plenty of water and dry thoroughly.

Product Description

Viscous lt. beige cream; density (at 68°F): approx. 1.03 g/cm³; pH-value: 4.9 - 5.5.

Features

Contains a low concentration of a cosmetic-grade solvent often used in high quality cosmetic and personal care products.

Use with or without water.

No scrubber or grit.

Benefits

For extra heavy-duty cleaning of grease, oil, and dirt but is much gentler to the skin, even with everyday use, than products with harsher solvents.

The choice is up to you. Tests have proven excellent results with a towel only and with a rinse.

For those that prefer a cleaner without scrubber. Also no chance to clog pipes with the grit that gets left behind with many competitive products.

PRODUCT-INFO

...keeping working skin healthy

STOKO[®]
SkinCare

Ingredients

Water
Sodium Laureth Sulfate
Isohexadecane
Laureth-5
Sulfated Castor Oil
Sodium Chloride
Cocamidopropyl Betaine
Cellulose Gum
Quaternium 18/Benzalkonium Bentonite
Citric Acid
Titanium Dioxide
Fragrance
Potassium Sorbate
2-Bromo-2-Nitropropane-1,3-Diol

First Aid

If KRESTO® KREME accidentally enters the eyes, flush thoroughly with lukewarm water. Contact a physician if burning sensation persists.

Storage Information

KRESTO® KREME can be stored in a closed container at room temperature for up to 30 months .

All STOKO® Skin Care products are tested for stability at temperatures between 23°F and 104°F. When tested at temperatures below 41°F and above 86°F, the products begin to fluctuate in viscosity. Hand cleaners may become cloudy or freeze partially at temperatures of 32°F or below. However, they are usable after thawing.

Additional Information

Frequent skin contact with hazardous substances requires the use of a high quality skin cleanser like KRESTO® KREME and the use of a special Before Work product. Contact STOKO® Skin Care or its appointed distributors for advice on selecting the appropriate products.

Occupational skin irritation, frequent washing and harsh climates can lead to dry, rough and chapped skin. To replace lost moisture and oils and help keep skin healthy, skin should also be regularly treated after work with an appropriate conditioning product, such as STOKOLAN®, STOKO®LOTION or STOKO® VITAN.
