SUSTAINABLE PACKAGING

Done Right.

• REDUCE • RE-USE • RECYCLE

Consumer demand for sustainable packaging solutions continues to grow. Bio-Pak food containers are made from paper, which is a renewable, natural resource. Our paper comes from responsibly managed forests and is certified to SFI Certified Sourcing standards. Each Bio-Pak container includes

a sustainability message on the bottom that will assure your customers that you are using sustainable packaging. There is also a website referenced that will give your customers additional information about the packaging materials and how they can be recycled.

- Sustainable packaging solutions
- Made in the U.S.A.
- For recycling information, visit www.fold-pak.com/green.htm
