

# Over-The-Spill™ System

## Slip & Fall Per Claim Cost

Every year, slip, trip, and fall accidents cost U.S. businesses nearly \$60,000 per lawsuit.

Source: The National Floor Safety Institute.

The Over-The-Spill™ Tablet mounts easily onto Rubbermaid® Floor Signs 6112 and 6114.

Over-The-Spill™ Station Pad Dispenser is easily refilled with medium or large pads.

# Rubbermaid's Over-The-Spill™ System –Your First Line of Defense Against Costly Slip and Fall Injuries.

A liquid spill on a smooth-surfaced floor is a potentially dangerous combination. In fact, slip, trip and fall accidents result in 6,800 deaths annually in the United States according to the National Safety Council. And they're the leading cause of employee injuries according to OSHA. Pain, lost work time, medical costs, and compensations can all be prevented by responding to a spill promptly, but cleanup is often delayed while workers search the back room for the proper equipment. In heavy foot traffic areas, particularly fast food restaurants and busy supermarkets, such delays present repeated opportunities for injuries.

Rubbermaid's Over-The-Spill™ Pads immediately alert pedestrians of a hazard. Each bright yellow pad is coded with the universal caution symbol and has the "CAUTION–Wet Floor" message in English and Spanish. Placed in the most vulnerable areas of any establishment, the

yellow dispensing units also help promote safety among employees and patrons. The station is constructed of corrugated plastic, can be mounted on any flat surface, and easily dispenses medium or large pads. The Over-The-Spill™ Pad Tablet can be mounted on a flat surface or on a yellow Rubbermaid® Floor Sign (#6112 or #6114) and holds medium size perforated tear-off pads.

Covering the spill is only the first step to safety; cleaning up the spill completely is equally as important. Over-The-Spill™ Pads are constructed of melt-blown polypropylene for added strength and absorbency, and they resist mildew and chemical attack. Each medium size pad absorbs up to 12 ounces and each large size pad absorbs up to 16 ounces of liquids, including water, oils, and most solvents.

Rubbermaid's Over-The-Spill™ Pads—they're where you need them, when you need them.

Station mounts easily to a flat surface.

Durable corrugated plastic construction.

Quick reference usage drawing.

Bilingual directions for use.

Mildew resistant pads hold to floor even when saturated.

Bilingual "Caution" message.

Large pads absorb up to 16 oz. of fluid per pad.

Refillable with medium or large pads.

Tablet mounts easily onto a floor sign or any flat surface.

Perforated pads are easy to remove.

Each medium size pad absorbs up to 12 oz. of liquid.

The Over-The-Spill™ Tablet fastens to floor signs or mounts to wall.
