

Stick a
fork in it,
foam.
You're done.

Introducing Mardi Gras™ plates and bowls. The smart alternative to foam.

There's finally a smart alternative to foam.

Mardi Gras™ plates and bowls are sturdy, cut-resistant, microwaveable and feature a much lower cube volume than foam. So they give you more benefits than foam, packed into less space.

Make room for Mardi Gras.

LESS SPACE.
Means more efficient use of your existing storage space.

125 Mardi Gras plates

125 foam plates

Why Mardi Gras?

STRONG:

- Able to hold food without “cracking”
- Cut-resistant
- Microwaveable

EFFICIENT:

- Lower stacking height than foam
- Better cube efficiency for less storage
- Space saver – Mardi Gras plates require **3x less storage space** than foam
- Shipping saver – you can fit **3x more Mardi Gras plates** on a truck than foam

* GP limited research prepared February 2009.

** Mardi Gras plates may be processed in commercial composting facilities that have final screening capability. The availability of such facilities is limited. Customers are advised to check locally to determine if they have access to suitable facilities.

ECONOMICAL:

- Comparable in cost to foam plates
- Unlike white no-print plates, you only have to use one*
- Lower cube volume saves on transportation costs

ENVIRONMENTAL:

- Made from clay-coated paper
- No inks or dyes
- No polystyrene foam
- Contains a minimum of 90% cellulose fiber by weight**

LESS PACKING MATERIAL.

Reduces amount of plastic and cardboard needed for packing.

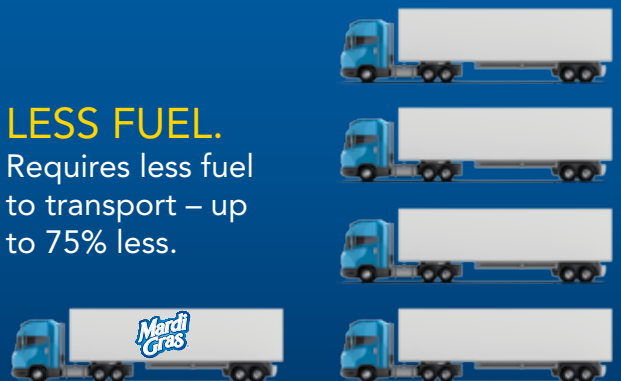

500 Mardi Gras plates

500 foam plates

LESS FUEL.

Requires less fuel to transport – up to 75% less.

1,000,000 Mardi Gras plates

1,000,000 foam plates
