THE ENVIRONMENT WILL THANK YOU.

AND SO WILL YOUR CUSTOMERS.

Introducing crystal clear containers made from 50% post-consumer recycled plastic bottles.

Show your commitment to sustainability while you show off your products with Fabri-Kal's Alūr™ containers – now made from a higher percentage of post-consumer recycled (PCR) plastic PET bottles. With 50% PCR messaging engraved on the bottom, your customers will understand that you're as committed to the environment as they are.

FK® **Fabri·Kal**®

EXPERIENCE A BETTER PACKAGE.™

Give your customers more of a good thing. Sustainability.

People will pay more for environmentally friendly products. Since nearly 1 in 4 consumers are willing to pay to save the environment,[1] it's likely that your customers will be glad to see you've chosen Alūr™ containers made with 50% PCR material. They don't have to pay more. And neither do you.

Save resources for the next generation with our new generation of containers. New Alūr™ containers are made from 50% post-consumer recycled PET plastic bottles. More recovered and reprocessed plastic bottles mean:

- Less refuse going into our waste stream.
- Less need to tap virgin raw materials to produce consumer goods.
- More recycled materials at work, strengthening the sustainability loop.

New Alūr™ with 50% PCR. And 100% commitment to quality.
Crystal clear Alūr™ round containers and lids are engineered to be durable as well as leak-resistant.

- Sturdy construction makes them hold up well in your operation and feel good in your customers' hands.
- They are brilliantly clear for complete product visibility.
- High-performance Alūr™ containers are also custom printable to promote your brand.
- Like all Fabri-Kal products, they are crafted with care right here in the U.S.A.

	Part No.	Description	UPC Code	Case Qty	Case Dimensions (in.)	Case Cube (ft³)	Case Weight (lbs.)
