

Higher performances at lower gauges

Steel-Flex®

Tough As Nails

Linear Low Density – HAO

Tough as Nails. The name says it all. Steel-Flex® liners pack more performance into every bag, providing up to 50% greater puncture and tear resistance than other low-density liners. That means a lower-gauge Steel-Flex bag will perform as well as, or better than, the more costly, higher-gauge bag you may be using now. Best-in class Steel-Flex liners are a strong “Green” choice, too.

Thanks to thinner, stronger films, Steel-Flex liners can cut plastic waste by up to 25% compared to thicker, lower-performing bags.

- Superior puncture and tear resistance
- Star bottom seal prevents leaks and odors
- Stands up to heavy, irregular waste
- Contributes to environmental source reduction — reduces plastic waste up to 25%
- Wide range of sizes and gauges
