

# LinoBASE®

Linoleum Sealer

## A specially formulated sealer for linoleum floors

### Versatile

- Forms a very tough, non-removable sealer that helps keep linoleum floors looking good for many years
- Brings back the true color even on old, worn and faded linoleum. In addition, it prolongs the life of linoleum floor

### Durable

- Sealer will not powder or crack even when applied on very porous linoleum
- This new and unique polymer system creates a tough seal with superior penetration, adhesion and cohesion properties, giving it a much higher resistance to abrasion and chemicals than conventional sealers
- Protects against water damage and against conventional alkaline floor cleaners

## Use Overview:

**LinoBASE® Linoleum Sealer** is specially formulated to form a long lasting seal over the linoleum floor and helps prevent it from being stained or damaged by water, conventional alkaline cleaners or strippers.

- Blockade area to be stripped or sealed.
- Floors can become very slippery when stripper is applied, exercise caution.
- Remove all old finish using **LinoSAFE® Linoleum Stripper** according to label directions.
- If there is no finish on the linoleum, clean with **Stride® Neutral Cleaner** at recommended dilution or with **LinoSAFE® Linoleum Stripper** at 2 oz. per gallon for removal of heavier soils.
- Rinse and allow to dry.
- Damaged linoleum should be made uniform in texture and appearance before application of **LinoBASE® Linoleum Sealer**.
- Dry-buff damaged linoleum with a #000 steel wool pad on a 175 rpm machine.
- Wipe away residual dust with a dust mop and allow to dry.
- Apply 2 uniform coats of **LinoBASE® Linoleum Sealer** using a clean rayon blend mop.

- Allow 45–60 minutes drying time between coats depending on temperature and humidity.
- Topcoat with any JohnsonDiversey floor finish according to label directions.

Note: **Carefree® Matte Low Gloss Floor Finish** is the preferred finish for linoleum floors.

## Product Specifications:

<b>Boiling/Condensation Point</b>	> 212° F (> 100° C)
<b>Color/Form</b>	Opaque white liquid
<b>Melting/Freezing Point</b>	32° F (0° C)
<b>Non-volatile Solids</b>	15%
<b>pH</b>	7.7

<b>Scent</b>	Mild
<b>Shelf Life</b>	2 years
<b>Slip Resistance</b>	Meets ASTM D2047 requirements
<b>Solubility in Water</b>	Complete
<b>Specific Gravity</b>	1.03

## Available items:
