a higher standard in quality

DUO SHIELD™ INSULATED HOT CUPS

Presenting Solo's premium insulated paper hot cup. Duo Shield™ cups are made from plant-based renewable resources and have a poly lining which acts as a moisture barrier to keep liquid inside the cup and prevent leaking. They are an outstanding option for specialty coffee, lodging, travel and leisure operations.

FEATURES

Air-pocket insulation

Matte finish

Upscale top-to-bottom custom printing capability

Available in Symphony™ or Tuscan Café™ stock designs

BENEFITS

Helps keep drinks hot longer

Provides better, non-slip gripping

Creates a walking billboard for brand messaging

On-trend stock designs to match any décor and merchandising objective

TRAVELER® LID – THE PERFECT FIT

Our market-leading design features:

- An inner ring to keep lids on during handling
- A better, snap-tight lid fit for less dribble and leakage

versatility at its best

TROPHY® INSULATED THIN WALL FOAM HOT CUPS

If you're looking for an exceptional value, Trophy® insulated hot cups are the answer. An ideal solution for convenience stores, lodging, hospitals and other operations, their durable two-layer construction keeps beverages warm and eliminates double-cupping or sleeves. Plus, superior-quality full print custom graphics help showcase brand identity.

FEATURES

Upscale top-to-bottom printing capability

Thin wall cup

One common lid fits the five most popular cup sizes (12-24 oz.)

BENEFITS

Creates a walking billboard for brand messaging

Provides a smaller case cube and minimizes storage space; more cups per stack to reduce frequency of cup restocking

Makes it easy for patrons to choose the correct lid and decreases the number of SKUs in inventory

the hottest way to go green

BARE™ COMPOSTABLE HOT CUPS

Solo is committed to making a positive environmental difference. Our compostable hot cups are made from plant-based renewable resources with a lining made from Ingeo™ biopolymer. Perfect for colleges, universities and other operations that are focused on eco-forward™ initiatives.

FEATURES

Meets ASTM D6868 standard for compostability and approved by Biodegradable Products Institute (BPI)*

Plant-based lining made with Ingeo™ biopolymer

Safe for microwave use up to 250°F (120°C)

Available in Bare™ stock print or custom designs

BENEFITS

Compostable in areas where commercial compost facilities exist; go to www.findacomposter.com to verify location*

Acts as a moisture barrier to keep liquid inside the cup and prevent leaking

Provides ultimate convenience for hot beverages

Showcases brand and environmental messaging

* Through independent testing, Solo confirmed that its Ingeo™ lined hot cups meet the ASTM standard for compostability. This means Solo's Ingeo™ lined hot cups are compostable in those areas where commercial compost facilities exist. Commercial compost facilities may not exist in your area, so please check with your local municipality.
** Lids are not compostable.

COMPOSTABLE AND CUSTOMIZABLE

Personalize cups with an environmentally friendly message

responsible and resourceful

BARE™ RECYCLED CONTENT HOT CUPS

Ideal for use in colleges, universities, hospitals, or parks and recreation operations, our FDA-compliant recycled content paper hot cups contain 10% post-consumer recycled content paper that has come from recycled office paper – reducing the amount of new material used in the cup. These high-quality recycled content hot cups are a premium option designed to meet the needs of operations considering an eco-forward™ paper hot cup solution.

FEATURES

BENEFITS

Made with post-consumer recycled fiber	Uses materials that have been recycled by consumers
Made from plant-based renewable resources	Responsible single-use options to support environmental leadership
Made with a poly lining	Acts as a moisture barrier to keep liquid inside the cup and prevent leaking
Available in Bare™ stock print or custom designs	Showcases brand and environmental messaging
