Auto Silicone Renovator

DESCRIPTION

This white emulsion contains a blend of silicones and wetting agents to penetrate, renew and protect a wide variety of surfaces including vinyl, leather, acrylics, thermoplastic, plastic, etc. Helps repel dirt and grime while it provides protection against ultraviolet rays and atmospheric ozone. Environmentally safe and pleasantly scented, Auto Silicone Renovator is the obvious choice for automotive maintenance and many other applications.

Note: The use of Auto Silicone Renovator renders treated surfaces very slippery. Do not use on vehicle pedals, steering wheels or on the parts of tires that contact the road. Use with care on seats, floor boards and other surfaces where friction may be critical.

Please read entire container label for detailed instructions and safety information.

DIRECTIONS

1  **Wear safety glasses & gloves**
Usar gafas de seguridad y guantes

2  **Clean surface**
Limpie la superficie

3  **Spray or wipe onto vinyl, tires, soft rubber**
