

Sheet No. 53

Revision Date: 13 August 2012

MATERIAL SAFETY DATA SHEET

HMIS:
Health- 1 Flammability- 0 Reactivity- 0 Pers.
Protection- N

NFPA:
Health- 1 Flammability- 0 Reactivity- 0 Special Hazard-
N

WHMIS: D 2 B

Section 1: Product and Company Identification

Product: Nilodew Dumpster Deodorizer
NEW AND IMPROVED

Synonyms:

NILODOR, INC.

10966 INDUSTRIAL PARKWAY NW
BOLIVAR, OHIO 44612, USA

Non-Emergency:
US 800-443-4321

24 hr Emergency Spill Information:
Chem-Tel, Inc.

International 010-330-874-1017

US, Canada: 800-255-3924. International:
1-813-248-0584

Section 2. Hazards Identification

EMERGENCY OVERVIEW

Appearance/Odor: Gray-brown granules

NOT Classified as hazardous by the criteria of NOHSC.

WARNING

Flammability : Not classified as flammable

Health Hazards Listed : Sensitivity to dust inhalation

Ecological Hazards Listed : None known

Potential Health Effects: See section 11 for more information.

Likely Routes of Exposure: Respiration

Eye: Direct exposure may irritate

Skin: Prolonged or repeated exposure may irritate

Ingestion: Not expected to be a problem

Inhalation: Classified as Group 3 (not classifiable for human) by IARC

Medical Conditions Aggravated By Exposure:

Allergies to fragrances; Asthma or preexisting respiratory problems

Target Organs: Lungs, see below

This product does not contain any carcinogens or potential carcinogens as listed by OSHA, IARC or NTP.

This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Potential Environmental Effects: (See section 12 for more information.)

None known

Section 3. Composition/Information on Ingredients

Component	CAS#	% by Weight	WHMIS Controlled
-----------	------	-------------	---------------------

Clinoptilolite (Natural Zeolite)	1318-02-1	30-35	N
Water	7732-18-5	10-15	N
Silica: Quartz	14808-60-7	0-4	Y
Odor Counteractant	NA	4-5	N
Montmorillonite Clay (Calcined)	70892-59-0	40-50	Y

Section 4. First Aid Measures

Eye Contact: Flush eyes with copious amounts of clean water, holding lids open. If irritation persists, consult a physician.

Skin Contact: Wash with soap and water.

Inhalation: Remove to fresh air if irritation, cough, shortness of breath occurs.

Ingestion: Give water or milk to drink if conscious.

Note to Physicians: Inhalation of fragrance is not expected to be a problem. Inhalation of dry dust may cause discomfort to allergies / sensitivities

Section 5. Fire Fighting Measures

Suitable Extinguishing Media: Foam, carbon dioxide, dry chemical

Unsuitable Extinguishing Media: Fragrance portion could float on surface of water and continue burning

Products of Combustion: Oxides of carbon and nitrogen.

Protection of Firefighters: Due to residual silica, self-contained breathing apparatus or dust mask is recommended

Section 6. Accidental Release Measures

Personal Precautions: Keep away from skin and eyes. If product appears dry or dusty, wear dust mask or respirator.

Environmental Precautions: Keep out of surface waters and sanitary sewers.

Methods for Containment: No special requirements. Liquid portion is adsorbed on mineral carrier.

Methods for Clean-Up: Sweep up or shovel up for disposal.

Other Information: After granular powder has been swept or shoveled up, area of spill may be mopped with soap and water.

Section 7. Handling and Storage

HANDLING

Keep away from skin and eyes. If product is dry or dusty, wear dust mask or respirator.

STORAGE

Section 8. Exposure Controls/Personal Protection

EXPOSURE GUIDELINES

COMPONENT:	TWA:	LD-50
Clinoptilolite (Natural Zeolite)	NA	NA
Water	NA	NA
Silica: Quartz	TLV 10 mg/cu m (0.0008% respirable)	Not determined
Odor Counteractant	NA	NA
Montmorillonite Clay (Calcined)	TLV 3 mg/ m3	NA

Engineering Controls: Normal Ventilation

Eye/Face Protection: Remove contact lenses (due to possible dust), Flush eyes with water if irritation occurs.

Skin Protection: Wash with soap and water. If sensitive skin, wear protective gloves.

Respiratory Protection: Dust mask or respirator recommended, especially if product appears dry or dusty. If inhaled remove to fresh air.

General Hygiene Considerations: Keep out of food and beverages

Section 9. Physical and Chemical Properties

Color: Gray to brown Physical State: Granular Solid pH: Not applicable Evaporation Rate: Not applicable Flash Point: Not applicable Upper Flammability Limit: Not determined Vapor Pressure: Vapor Density: Not determined Volatile Organic Compound (VOC),%weight: Less than 5%, all fragrance	Odor: Spicy Odor Treshhold: Freezing Point: Not applicable Boiling Point: Not applicable Flammability(solid,gas): Not considered flammable. Lower Flammabilty Limit: Not determined Specific Gravity: Not determined. Bulk density greater than 0.75 g/mL Auto-ignition Temperature: Not determined Solubility (water): Insoluble Percent Volatile: Less than 20% including water
--	--

Section 10. Stability and Reactivity

Stability: Stable
 Conditions to Avoid: None known
 Incompartable Materials: Unsaturated organic compounds such as turpentine, vegetable oil, and hydrofluoric acid may generate heat when mixing with dry clay.
 Hazardous Decomposition Products: None known
 Possibility of Hazardous Reactions: Extremely improbable

Section 11. Toxicology Information

ACCUTE EFFECTS

Oral LD50:	Not determined for mixture. Weighted average more than 6 grams per kilogram, acute.
Dermal LD50:	Not considered toxic by skin contact. Weighted average more than 5 grams per kilogram, acute.
Inhalation:	Not considered acutely toxic by inhalation. Weighted average more than 4 milligrams per Liter.
Eye Irritation:	Direct contact with fine particles can irritate eyes
Skin Irritation:	Prolonged or repeated contact can irritate skin
Sensitization:	Sensitivity to residual silica may occur after long term exposure.

CHRONIC EFFECTS

Carcinogenicity:	Mixture contains zeolite which is Class 3 (not classifiable to humans) by IARC. Residual Silica is a suspected carcinogen however the low levels in this product would not cause adverse effects with normal use.
Mutagenicity:	None known
Reproductive Effects:	None known
Developmental Effects:	None known

Section 12. Ecological Information

Ecotoxicity:	None known
Persistence/Degradability:	None known.

Bioaccumulation/Accumulation: Mineral carrier is persistent. Fragrance is biodegradable.

Mobility in Enviroment: None known

Section 13. Disposal Considerations

Disposal: Mineral carrier is not mobile.

Section 14. Transportation Information

US DOT (ground)

Proper Shipping Description: Dispose according to Federal, State or Provincial, and Local regulations

CANADA TDG (ground)

Proper Shipping Description: Not a Hazardous Material

ICAO (air)

Proper Shipping Description: Not a Dangerous Good

IMDG (water)

Proper Shipping Description: Not a Dangerous Good

Section 15. Regulatory Information

Global Inventories

TSCA: United States Included

DSL: Canada Included

ECL: Korea Not-Known

PICCS: Philippines Not-Known

ENCS: Japan Not-Known

AICS: Australia Included

IECS: China Not-Known

EINECS: European Union Included

SARA 313 Information : Does not contain reportable concentrations of any SARA 313 Substances

California Safe Drinking Water and Toxic Enforcement Act pf 1986 :(Proposition 65)

Not classifiable by IARC. Product mixture may contain negligible amounts of silica.

WHMIS: Canadian Workplace Hazardous Material Information System

D 2 B

Section 16. Other Information

Legends:

NFPA, HMIS:

0=Minimal Hazard, 1=Slight Hazard, 2=Moderate Hazard, 3=Severe Hazard, 4=Extreme Hazard
