

for High Efficiency Front & Top Loading Washers

Brisk® HE Laundry Detergent is specially formulated for high-efficiency front and top loading washers. High-efficiency washers use less water than conventional washers.

Brisk® HE Laundry Detergent utilizes a special low-foaming formula that contains no phosphates. Special soil dispersants get clothes clean in any water temperature — hot or cold. The surfactants in Brisk® HE Laundry Detergent are biodegradable and safe for septic tanks.

Brisk® HE
ST-780, 2 fl. oz. pack

ST-No.	Case UPC No. Mfg. No. 071206	Case Size	Case Weight	Cases/Pallet
ST-780	007803	72 x 2 fl. oz. packs	12 pounds	75

Directions

Use one pack of Brisk HE Laundry Detergent per average washload in high efficiency front and top loading washers. Use 2 packs for heavily soiled articles and hard water. Pretreat heavily soiled articles by applying BRISK HE Laundry Detergent on soiled areas and rubbing firmly. Always test on an inconspicuous area, such as an inside seam for colorfastness. Add to wash load; no presoaking is necessary. If desired, add bleach after wash cycle has begun.

Note: Brisk HE Laundry Detergent may be used in conventional washers.

Ingredients

The primary ingredients in Brisk® HE Laundry Detergent are biodegradeable cleaning agents (anionic and nonionic detergents), water softeners, stabilizer, buffering agent, optical brighteners, dye, perfume, and a preservative.
