Note: Test the cleaner in an inconspicuous area to assure the carpet is colorfast. Apply ready-to-use solution to a small area. After several minutes, blot the carpet with a clean white cloth or paper towel. If color from the carpet transfers to the cloth or towel, discontinue use.

1. Vacuum the carpet area thoroughly.
2. Use a 3M™ All-Purpose Sprayer (Model AP-1) or a bulk pressurized sprayer to apply the pretreatment cleaner.
3. Dispense the pretreatment cleaner using the 3M™ Twist 'n Fill™ Dispenser or 3M™ Flow Control System Wall Mount Dispenser or 3M™ Flow Control System Portable Dispenser directly into the solution tank of your sprayer.
4. Fill the carpet extractor with warm to hot water.

5. Apply the pretreatment cleaner to the carpet area at a rate of 200 ft. per diluted gallon.
6. Allow 1-3 minutes dwell time.
7. Provide agitation to heavily soiled areas using a brush or 3M™ Carpet Bonnet Pad (optional).
8. Extract the carpet using overlapping passes of the extraction wand.
9. Move the extractor slowly over the carpet, making two passes.
10. Dispense rinse water throughout the first pass.
11. On the 2nd pass, vacuum only – do not apply additional water.
12. Apply Scotchgard™ Carpet and Upholstery Protector Concentrate to carpet immediately following extraction cleaning.
