

 CREATIVE
CARRYOUTS®

FALL 2010

*Containers that do
the selling for you.*

SOLO 

*Designed to BUILD
your BUSINESS*

Whether you call it carryout, to-go, or anything else, it's no longer about getting your food from A to B. Consumers expect an experience, which impacts your sales like never before.

Solo's premium line of containers meets today's serving demands in ways other companies may not have considered. Think a variety of products with immediate eco-benefits. Extremely durable and trendy, designed to streamline prep and transport. And a simply better solution that can help you build your business.

Restaurants to supermarkets, snacks to entrees. Any food, any application. What we put into our containers is nothing compared to what you'll get out of them.

6 INGREDIENTS FOR SUCCESS

Selecting the right container.

4

OUR PRODUCT *plus yours*
equals HIGH SALES *and* REPEAT BUSINESS

You're selective about the ingredients that go into your food. We're selective about what goes into our containers to preserve your food's integrity. When everything comes together, your customers come back.

Our 6 ingredients represent how we make containers better for you. How we can help enhance operations, preparation, food presentation, cost-effectiveness and overall efficiency. How we keep you in control, no matter where your food goes.

6 ingredients

These ingredients are your recipe for success in selecting the right container for your application, and for making every purchase a bigger sales opportunity.

1

RIGHT MATERIAL

Hot & Cold. Innovative, highly durable and versatile – the right material for the right application to keep what you serve fresher, longer.

2

OPERATIONAL EASE

Prep & Packing. Sensibly engineered to simplify the process so your operation can move faster and smoother. Designs that save you shelf space and labor costs.

3

FOOD PRESENTATION

Look & Feel. Customizable, trendy designs, clear lids, solid construction – displays food better, instills confidence and creates an impression that drives sales.

4

for SUCCESS

4

CARRYOUT EFFICIENCY

Security & Assurance. Sturdy and stackable design saves carryout bags and counter space. Seals firmly so you can shut it and not worry about it.

5

CONSUMER EXPERIENCE

Performance & Perception. Preserves food integrity, improves leftover storage and reinforces your brand. Some are even microwavable and reusable.

6

ECO IMPACT

Smart & Savvy. Eco-Forward™, recycled and source reduction options deliver your go-green commitment with style and help to grow your business.

5

Creative Carryouts® MATERIAL GUIDE

Takes the HEAT and KEEPS FOODS warmer.

Polypropylene is highly resistant to heat, grease, sugar and acid. Its key advantages are strength and toughness, making it the ideal microwavable container. Solo Cup's Advanta™ blend uses up to 25% less plastic than standard polypropylene, while improving rigidity and insulation properties, durability and flexibility. Advanta™ is also surprisingly lightweight and more eco-friendly than standard polypropylene.

High impact PRESENTATION and PERFORMANCE.

Polystyrene is highly versatile for both microwarmable and cold applications. It's a strong, rigid material, glossy in appearance with excellent clarity. We offer two types that provide a wider range of application possibilities. Standard PS 180 for cold, and our own special PS 225 blend for microwarmable applications.

Recycle Code #1	Sustainable, compostable in a commercial facility	Environmental Impact

The HOTTEST THING for COLD applications.

PETE is short for Polyethylene Terephthalate. Our PETE products are made from post-industrial recycled materials. Primarily for cold applications, PETE products offer several advantages. Like excellent barrier properties, superb lid clarity, cut resistance, and a high gloss finish for exceptional merchandising appeal. It's strong and durable, yet flexible. PETE is today's go-to material for eye-catching displays.

Made FROM PLANTS not petroleum.

PLA stands for Polylactic Acid, an annually renewable material derived from plant sugars. Manufactured from Ingeo™ plastics, PLA biodegrades within 60-180 days in commercial composting facilities. Best for cold applications, our bases also have a higher heat range than most biodegradable resins due to our unique resin blend. Creative Carryouts® ECO PLA packages release no toxins and are completely disposable with food waste.

71% of consumers perceive food packaging as making a big difference in food quality.

— Technomic, Inc., 2007 Consumer Survey – Takeout Packaging Consortium

that means BUSINESS

A stylish, trendy container design creates a high-quality container that invites sales. Even better when it provides a true straight-to-the-table experience. Our Expressions® line achieves both in a two-piece container with added versatility. The square-shaped design creates a high-quality takeout container that compliments any décor. Each features leak-resistant, easy-to-close lids and select options are microwave safe. Ideal for display, casual dine-in and

to-go applications, Expressions® makes a statement that inspires preference and motivates sales.

PRIME INGREDIENTS FOR SUCCESS

9" & 32oz.

9" & 32oz.

Food Presentation

Trendy, square design displays food better, enhances portion perception and creates an impression that drives sales.

Consumer Experience

Plate-like design enhances the dining experience.

Operational Ease

PETE Expressions® lids also fit Advanta™ bases adding versatility and display options. Lids shut easily and securely for faster service. Saves SKUs and shelf space.

Eco Impact

PETE and Advanta™ blend selections for hot and cold applications.

PRIME INGREDIENTS FOR SUCCESS

Consumer Experience

Tear-Away lid adds two-piece convenience to a hinged container. Sturdy, microwave-safe options.

Carryout Efficiency

Exceptionally strong Advanta™ allows interlocking stacking. All vents remain functional when stacked.

Food Presentation

Octagonal design displays food better, enhances portion perception, allows for premium pricing.

Operational Ease

Lids click shut with one easy motion. Speeds operation and ensures secure seal – essential for hot foods.

Consumers consider secure seals, environmental friendliness, and durability the top three packaging attributes.

— Technomic, Inc., 2009 Takeout Packaging Consortium

Ingeo™ and the Ingeo™ logo are trademarks of NatureWorks, LLC in the USA and other countries.

that GROW preference

Consumers are increasingly concerned about the environment, and no container displays your go-green commitment more effectively. Our ECO™ containers can do a world of good for your image, bottom line, and Mother Earth. They're perfect for cold applications – any salad, sandwich, fruit or dessert. And because they're made of Ingeo™, a plastic derived from plants, ECO™

containers will biodegrade in a commercial composting facility. So when you serve foods in an ECO™ container, you're using a sustainable resource that helps reduce greenhouse gas emissions and fossil fuels.

Return to Nature.™

Switching 750,000 containers to Ingeo™ means fossil fuel savings of 6,678 gallons of gasoline and greenhouse gas savings equivalent to driving a vehicle 161,492 miles.*

*Calculations based on switching from GPPS.

PRIME INGREDIENTS FOR SUCCESS

Eco Impact

Eco-Forward™ product that displays your go-green commitment with style.

Operational Ease

Stackable containers add speed and safety. Stronger and more durable than most green packaging.

Food Presentation

Contemporary appeal, tan base emphasizes an environmental message, clear lid showcases food. Creates an impression that drives sales.

Consumer Experience

Enhances customer good will and emphasizes an environmental message.

Restaurant take-out continues to outpace total segment growth and represented 40% of sales in 2009.

839018-PM94		Monster Box ●●●●● 2-Compartment	12.96 x 11.02 x 3.35	64\40	50

Did you know that compartmented containers save food costs by managing portion control without compromising food quality? For example, saving 36 cents on 2 ounces of potatoes served 312 times per day, 22 days per month, can save you over \$29,500 per year!* Ask your sales rep about our Portion Control Calculator!

*Savings gained by reducing portions 2 ounces per serving using compartmented containers. Based on 2009 average industry food costs.

EZ to SECURE

Easier for large orders

Both Monster Box™ and Dinner Box containers are perfect for multiple orders. Monster Box™, equal to half a steam table, is uniquely built for large family size and catering orders. EZ Close lids snap securely shut and prevent slippage when stacked. Compartments improve on portion control, food separation, and keep each item at just the right temperature. Venting preserves just-prepared quality, fog-resistant lids add appeal, and all are microwarmable. Quite simply, they're containers that can impact your sales in a big way.

PRIME INGREDIENTS FOR SUCCESS

Food Presentation

Black bases with clear lids display food better and create an elegant impression that drives sales. Excellent for merchandising.

Operational Ease

Hinged design reduces SKUs and labor costs. Compartments help with portion control. Variety of space efficient, stackable shapes and sizes make distinctive displays.

Carryout Efficiency

Clear lids assure order accuracy. Sturdy and stackable to save carryout bags. EZ Close and Bar Lock selections ensure tight closures.

Unique DESIGN SEALS the deal

Here's a different way to look at containers. Our IsoBox® design creates a unique shape you'll find in no other container. Four containers make a square, saving shelf space. And the distinctive design displays foods better and sells your product faster – from salads, sandwiches and wraps, to sides, warm entrees, even calzones. But looks aren't everything, thanks to Leak Guard, one of the strongest closures available. It preserves freshness like nothing else. IsoBox® is a container you can rely on to attract attention and lock in more sales.

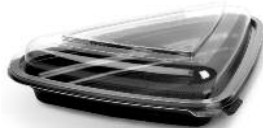

FEATURES KEY

LEAK GUARD
Tight closure locks in freshness and resists leaks.

COLD APPLICATIONS

IsoBox®

Part No.	Material	Description	Dimensions	Fl. Oz.	Case Pack
892001-PS94		IsoBox, Small ●	9.19 x 6.66 x 2.16	14	200
891001-PS94	PS	IsoBox, Medium ●	10.63 x 8.23 x 2.16	24	100
893001-PS94		IsoBox, Large ●	12.01 x 9.61 x 2.16	36	100

PRIME INGREDIENTS FOR SUCCESS

Consumer Experience

Customizable lid builds brand awareness. Full perimeter seal keeps deli items and leftovers tasting fresh longer.

Food Presentation

Unique shape accentuates a variety of foods for added merchandising appeal. Four-make-a-square display drives impulse sales.

Operational Ease

Secure stacking design saves shelf space. Leak Guard prevents seeps and leaks.

CUSTOMIZE IT

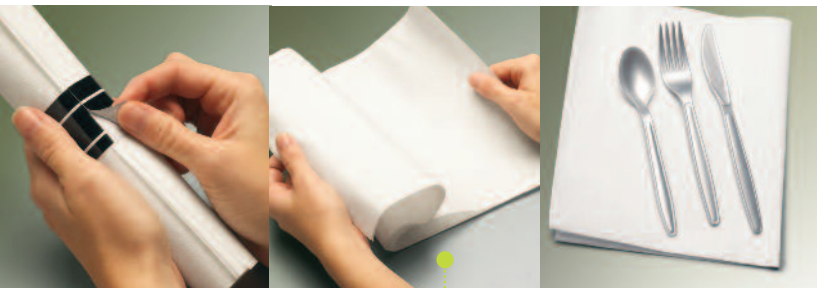

and make it yours

Let Solo Cup help you design the right container for your business and brand. Many of our products can be custom-developed, and we offer logo embossing. We'll work closely with you to create a container that's as valuable to your marketing as it is to your operation.

Compact and
READY *to use*

Now you can save time and money without compromising your food presentation. ReadyRoll® features a set of high performance cutlery enclosed in a premium Airlaid napkin.
