

# Bio Spot Carpet Spot Remover

A powerful carpet spot cleaner specially formulated with three enzyme-producing bacteria strains to eliminate organic soils and problem spots in carpets and upholstery.

- Specially designed to eliminate urine, milk, beer, blood, vomit and other odor-causing organic material that is left in carpet backing and upholstery.
- Safe on 5th Generation Carpet (today's current dye-stable nylon carpeting) and water-safe fabrics.
- Includes a pleasant fragrance to leave the area smelling clean and fresh.
- Designed to be applied directly to affected area.

**Formula Features:**

- Removes Urine, Beer, Milk, Vomit, Blood Spots, & Odor-causing Food Spots
- Clear Product Formula
- Clean, Fresh Fragrance
- Deodorizes

**Applications:**

- Spot treatment designed to remove organic soils and odors from carpets, upholstery, and water-safe fabrics.
- For best results apply directly to affected area, lightly agitate, and blot.
- Do not use as spray cleaner, due to airborne enzymes risk.

**Special Usage Notes:**

- Do not use as a spray.
