FiberPRO® BONBET™

Bonnet Shampoo

Surface soils on carpet are unsightly and can lead to permanent damage. Vacuuming daily is important, but when it is time for interim cleaning measures, the spin bonnet method is the preferred choice. The primary advantage of this method is the rapid dry time. This formulation dries in less than one hour, is nonflammable, fast evaporating and cleans a wide variety of soils, yet it leaves no residue.

Uses

- For use with rotary bonnet cleaning method to remove surface soils from all types of carpeting or upholstery, including 5th generation.

Features

- Fast drying – Dries in less than one hour when used as directed.
- Powerful – Quickly removes oil, grease and soils.
- Versatile – Use for dry or wet bonnet methods.
