

## Features & Benefits

Customers prefer Duro's Handle Bags for their durability, reusability and efficiency; while grocers rely on these shopping bags for their strength and easy loading.

Whether you're carrying a sack full of cantaloupes or a few family-sized bags of potato chips and tortilla strips, these Handle Bags are proven to withstand a sizable load.

Handle Bags hold more items than traditional plastic T-Sacks with aids in source reduction at the checkout counter, and the self-standing style allows for easier loading.

Choose from the compact 1/7 bbl Handle Down or The "Original" 1/6 Handle Bag™ patented by Duro with the handles up.

Customize Duro's Handle Bags with your company logo or a vibrant message that stands out beyond the check-out line.

Also available is our stock Thank You Handle Bags that can be ordered in smaller quantities. With 300 bags per bale, it is the perfect amount for small storage rooms, as well as smaller budgets.
