

# DAILY DISINFECT

## Germicidal Detergent and Deodorant

A concentrated, multi-purpose, germicidal and deodorant effective in water up to 400 ppm hardness (calculated as CaCO<sub>3</sub>) plus 5% organic serum. Disinfects, cleans and deodorizes in one labour-saving step. Recommended for use in hospitals, nursing homes, schools/colleges and veterinary clinics. Bactericidal, fungicidal, and virucidal.

### Uses

- Floors
- Metal surfaces
- Porcelain
- Stainless steel surfaces
- Walls

### Benefits

- Virucidal against Influenza, Herpes simplex Type 1, Herpes simplex Type 2, Vaccinia, Rubella and Adenovirus Type 4 according to the AOAC Use Dilution Method.
- Labour-saving – No film and no haze; reduces maintenance hours. Your floors will retain that "just waxed" shine longer.
- Effective against the following organisms according to AOAC Use Dilution method:
  - Pseudomonas aeruginosa
  - Staphylococcus aureus
  - Salmonella choleraesuis
  - Bordetella bronchiseptica
  - E. Coli
  - E. Coli (antibiotic resistant)
  - Streptococcus pyogenes
  - Shigella flexneri
  - Streptococcus faecalis
  - Aspergillus niger
  - Staphylococcus aureus (methicillin resistant)
  - Enterococcus faecalis (vancomycin resistant)
  - \* Influenza Type A
  - \* Herpes simplex Types I & II
  - \* Vaccinia virus
  - \* Adenovirus Type IV
  - \* Retrovirus
  - \* Coronavirus
  - \* Rhinovirus
- Effective against the following as determined by Phenol coefficient method:
  - Candida albicans
  - Trichophyton interdigitale

### Properties

Color.....	Yellow
Fragrance .....	Lemon
Freeze/thaw .....	3 cycles
pH.....	7.0 - 8.0
Dilution.....	16 mL/L (1:64)
Shelf life .....	1 year
GUARANTEE:	
Didecyl dimethyl ammonium chloride.....	2.31%
n-Alkyl (50% C <sub>14</sub> , 40% C <sub>12</sub> , 10% C <sub>16</sub> )	
Dimethyl benzyl ammonium chloride.....	1.54%

Authorized Betco Distributor

### Directions For Use

General Use Directions for Disinfecting:  
 For use on hard non-porous surfaces such as floors, walls, metal surfaces, stainless steel surfaces, porcelain, and plastic surfaces. Remove gross filth and heavy soil deposits then thoroughly wet surfaces. Use 16 mL per litre of water for a minimum contact time of 10 minutes in a single application. Can be applied with a mop, sponge, cloth, coarse spray or by soaking. The recommended use solution is prepared fresh for each use then discarded. Rinsing is not necessary unless floors are to be waxed or polished.

Mildewstatic Instructions:  
 Will effectively control the growth of mold and mildew plus the odors caused by them when applied to hard, non-porous surfaces such as walls, floors and table tops. Apply solution of 4 mL per litre of water with cloth, mop, sponge or coarse spray making sure to wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

**KILLS HIV-1 ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODILY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or bodily fluids, and in which the surfaces/objects likely to be soiled with blood or bodily fluids can be associated with the potential for transmission of human immunodeficiency virus HIV-1.

#### Special Instructions for Cleaning or Decontaminating Against HIV-1 on Surfaces and Objects Soiled with Blood or Bodily Fluids:

**Personal Protection:** Disposable latex or vinyl gloves, gowns, face masks, or eye coverings as appropriate, must be worn during all cleaning of blood/bodily fluids, and decontamination procedures.

**Cleaning Procedure:** Blood/bodily fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant.

**Contact Time:** Effective against HIV-1 on hard non-porous surfaces in the presence of a moderate amount of organic soil (5% blood serum) when used at a 1:64 dilution (providing 600 ppm of active quaternary) in 400 ppm CaCO<sub>3</sub> hard water for a contact time of 4 minutes at room temperature (20 - 25° C). Use a ten (10) minute contact time for disinfection against all other bacteria, fungi, and viruses claimed.

**Disposal of Infectious Materials:** Blood/body fluids should be autoclaved and disposed of according to federal, provincial and local regulations for infectious waste disposal.

### Safety

**PRECAUTIONS:**  
**KEEP OUT OF REACH OF CHILDREN.** Corrosive. Causes eye and skin damage. Do not get on skin, in eyes or on clothing. Harmful if swallowed.  
**FIRST AID:**  
 In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician.
